

Dear SSES Families,

I hope this email finds you well. We are writing to inform you of an important change that will be taking place at our school next week. In response to student growth and the need to ensure optimal learning environments, we have received an additional classroom teacher and we will be reconfiguring the classes for students in Grades 2 through 6. We have not received the final grade level configuration from HRCE, but we are beginning to make the necessary logistical arrangements to free up a classroom (yes we do have a classroom that can be used).

Starting next week, the following changes will be implemented:

- **Class Reconfigurations:** Some students will be reassigned to new classrooms and teacher to ensure balanced class sizes and to better support individual learning needs. Our goal is to create a more effective and engaging learning experience for every child.
- **Why the Change?:** As our school population grows, it is important to adjust class compositions so that each student has the best opportunity to thrive academically and socially. The reconfiguration will allow us to align resources, tailor instruction, and maintain manageable class sizes.
- **Proposed Timeline:** New classroom assignments will be communicated to you and your child by Thursday, October 3rd via email. Students will line up with their new class teacher and classmate on the morning of Friday October 4th.
- **How This Affects Your Child:** We understand that changing classes can be a significant shift for students. As many of you know, there is considerable time and thought that goes into making class lists. We do our very best to ensure all children are placed in classes that best support their needs both socially and academically. So please know our teachers and staff are committed to supporting all children through this transition. Rest assured that your child's well-being remains our top priority.

If you have any questions or concerns regarding this reconfiguration, please feel free to reach out to your child's current teacher or contact me directly. We are here to support you and your child during this change.

Thank you for your understanding and continued support as we work to provide the best educational experience for all our students. Hope to see you tonight for our BBQ/Ice-Cream/Curriculum Night.

Yours in Learning,

Dave
