What's a Chance Auction?

It's a Silent Auction and a Raffle combined!

How it works:

Just like a traditional silent auction, the auction lots are placed around the room for you to view and place bids.

Instead of writing out dollar amounts, you buy raffle tickets and use them to "bid" on items. At the end of the event, the tickets are drawn and the lucky ticket wins the lot.

Tickets are sold in groups of 3, 10 and 30.

You can split up your tickets to bid on many items or put them all into one lot to increase your chances of winning.

1 ticket = 1 bid, how you use the bids is up to you!
